

## ★Customized Illusions

Making special guests appear is yet another of the endless possibilities accomplished through “*Magic.*” Creating magic designed to promote your product or company as part of a trade show exhibit, product launch or company event is our specialty. Magically producing your **CEO on a Harley Davidson Motorcycle®**, in a **NASCAR®** or from within your product or customized presentation is our signature. The effect on your audience is staggering. Your presentation is dramatically taken to a whole new level. A small sampling of what can be done is listed in the following but please do not hesitate to inquire about something that isn’t mentioned.

**IMAGINATION STATION:** The routine begins with the magician performing an illusion where his beautiful assistant magically appears from within an empty blue box. He turns the illusion around, exposing the behind the scenes view of how this was achieved. The stage lighting is changed to create the look that the audience is now back stage with the magician. The assistant reveals her secret hiding place prior to her appearance. Much to the audiences dismay she was merely hiding behind the big grey box. They watch as she visibly crawls from one box to the other then pops through the top magically appearing! Well the audience is not impressed with this elementary explanation. The magician insures them that practice makes perfect. The music starts again and she gets back into the blue box. It is lifted by the magician and his helper and placed within the grey box, the one it came out of in the beginning. However, upon opening both boxes, the lovely assistant has completely vanished and **YOUR CHOSEN COMPANY EXECUTIVE, EMPLOYEE OR AWARD RECIPIENT** has magically appeared instead! A very exciting and impressive illusion for your audience.

**VIP APPEARANCE:** A shipping crate labeled “**Ship to: YOUR COMPANY**” is opened center stage by the magician and one male technician. A decorative trunk is revealed inside and shown completely empty. The trunks are closed, one within the other and spun around once. Suddenly the music crescendos and both trunks reopened to reveal **YOUR CHOSEN COMPANY EXECUTIVE, EMPLOYEE OR AWARD RECIPIENT** who is pulled from the trunk by a beautiful assistant with a feather boa wrapped around his neck and lipstick kisses on his face. Of course the boa and kisses are optional.
